SUBSCRIPTION FEES

Add your team and start selling!

Subscription fees are charged once you have created your first catalogue listing. This will be charged on the first day of the month at R400, excluding VAT. This allows you and 9 additional users access to our services.

You can choose to cancel your account at any time.

SUCCESS FEES

These are Takealot's referral fees and cover transactional costs, customer support and all-round platform support.
The below table provides an indicative range of success fees per category. Please see the detailed breakdown **here**.

10.0% – 14.0%	Stationery
12.0% – 12.0%	Toys
5.5% – 12.0%	TV & Audio

**All fees are exclusive of VAT*

FULFILMENT FEES

Fulfilment fees are charged per item shipped from a Takealot warehouse (Rands)* to customers anywhere in South Africa.

As of **1 March 2023,** we've made the following adjustments to our Fulfilment Fees.

- Increase Fulfilment Fees
- Amend light standard Fulfilment Fee

These adjustments will allow us to recover the per-unit variable costs, and continue to offer the best possible service to our customers, and expand the seller base. Please find the new adjusted fees in the table below.

Fulfilment Fee per item shipped from a Takealot warehouse (Rands)*				
Weight				
Size	**Light** **Less than or equal to 7kg**	**Heavy** **Greater than 7kg and less than or equal to 25kg**	**Heavy Plus** **Greater than 25kg and less than 40kg**	**Very Heavy** **Greater than or equal to 40kg andless than or equal to 70kg**
Standard Product Categories: Non-Perishable, Household Cleaning & Liquor that are less than OR equal to 35 000 cm3	R20	R47	R100	R100
Standard Product Categories: Stationery, Pets, Baby, Consumer Beauty, Health FMCG, Bathroom items that are less than OR equal to 35 000 cm	R30	R47	R100	R100
Standard Less than or equal to 35 000 cm3 (All other categories)	R42	R47	R100	R100
Standard Product Categories: Mobile, Laptops, Small household appliances, Small Kitchen Appliances, Smart home & appliances, TV, Audio, Video, Smart audio technology Smart Energy Solutions that are less than OR equal to 35 000 cm3	R55	R55	R100	R100
Large Greater than 35 000 cm3 and less than or equal to 130 000 cm3	R55	R60	R100	R110
Oversize Greater than 130 000 cm3 and less than or equal to 200 000 cm3	R100	R120	R150	R110
Bulky Greater than 200 000 cm3 and less than or equal to 545 000 cm3	R100	R135	R150	R160
Extra Bulky Greater than 545 000 cm3	R250	R250	R300	R360

**All fees are exclusive of VAT*

Please note: Fulfilment Fees are charged when an item is shipped from the DC. This means that lead time items sold before 1 March, but shipped thereafter, will attract the new fee.

To ensure that you cover the guaranteed Takealot fees, such as Fulfillment and Success Fees, use the **Fee calculator** on the Manage my Offers page to determine a feasible Selling Price for a specific offer.

How does this work?

The Success Fee is calculated using the fee category, and the Fulfilment Fee is calculated using the weight and dimensions of the product.

Please note *that the fee calculator provides an estimate and does not include subscription fees, storage fees or any other fees that can be avoided and are not guaranteed to be applied to the sale of a product*

For more information, view the following Knowledge Centre articles:

- What is the Fee Calculator?
- How to use the Fee Calculator
- The Manage my Offers Export

Fee Estimator

For any new products that you would like to sell but are unsure of the fees per product.,use the Fee Estimator.

This Fee Estimator will calculate the estimated Takealot fees you will be charged for a product that you may wish to list on Takealot.com. It is important to note that this only provides an estimate and does not include Subscription Fees, Storage Fees or any other fees that can be avoided and are not guaranteed to be applied to the sale of a product.

STORAGE FEES

Free storage on fast-moving lines! It's all up to you.

Products with a stock cover of 35 days or less receive free storage at our distribution centres. Alternatively, opt to sell on Leadtime and only deliver the number of products ordered to avoid being charged. Eligible products are charged on the **1st day of the following month** i.e. you will be charged for December's storage on 1 January.

Use the **Stock Cover Guide** to see how to manage your stock days cover with various tools across the Seller Portal.

View applicable charges below.

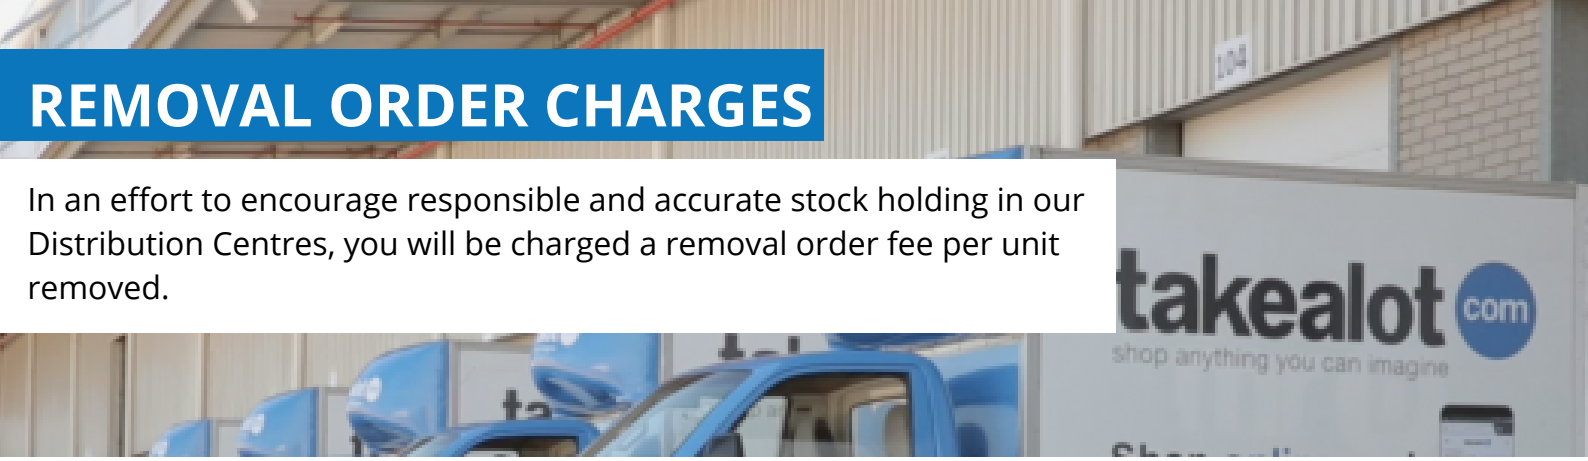
Effective 1 January 2025, we've removed escalated Storage Fees for products with Stock Cover exceeding 46 days.

Storage Fee per item/month (Rands)*		
Size of packaged product in cm3	**0 - 35 stock days cover**	**35 - 45 stock days cover (Overstocked)**
Small 0 – 60 000 cm3	R0	R2
Standard 60 001 – 130 000 cm3	R0	R6
Large 130 001 – 200 000 cm3	R0	R12.50
Extra Large 200 001 – 275 000 cm3	R0	R22.50
Oversize 275 001 – 545 000 cm3	R0	R75
Bulky 545 001 – 775 000 cm3	R0	R125
Extra Bulky > 775 000 cm3	R0	R225

**All fees are exclusive of VAT*

REMOVAL ORDER CHARGES

In an effort to encourage responsible and accurate stock holding in our Distribution Centres, you will be charged a removal order fee per unit removed.



The fee per unit removed is **R10 (ex VAT).** This will be processed as a single transaction on your account, once the order has been collected from the distribution centre and the quantities have been confirmed.

When booking Removal Order collections, you can save time and effort by opting for the **Marketplace Removal Order Delivery Service.** To learn how to sign up for this seamless collection process, click **here.**

How can you better manage your stock levels in future?

- Regularly apply for upcoming **Promotions** & **Daily Deals** to move stock in the DC's.
- Download the **Product Sales Report** to plan your replenishment levels - refer to the "Days since last sale" and "In Stock Days Cover (used for storage fee calculation)" columns to identify slow- and fast-moving lines
- Invest time to review the **Stock Cover Guide** to understand how you should be using this metric to guide your replenishment decisions.

CUSTOMER ORDER CANCELLATION FEES

This is an avoidable penalty.

All Leadtime customer orders that are cancelled with reason codes “Cancelled by Takealot - Late” or “Cancelled by Seller”, will attract a **R50 penalty excluding VAT.**

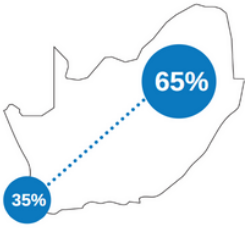
To avoid this penalty, it is imperative that you:

- Create a confirmed booking at least **48 hours before the Shipment Due Date** - waiting too long before trying to secure a slot is the most common error that sellers make.
- Have an established account with **2 couriers** at any given time
- Keep your shipments to below 50 units per shipment - these are more easily accommodated with available booking slots.
- Ensure that you manage your stock on hand (SOH) levels closely in the portal to avoid cancelling orders that sell out of stock.
- Ensure that you read and understand the **Service Level Agreement Guide**, which is a document that highlights in more detail the percentage thresholds regarding the operational performance of your Seller Account and how to manage and plan better to avoid additional charges.

AUTO IBT PENALTY CHARGES

"Auto IBTs" refer to Automatic Inter-branch Transfers (Stock Transfer Fee in the Seller Portal). This occurs when a customer orders an in-stock unit from an alternate destination DC and requires us to ship the unit to the DC closest to the customer for last-mile delivery.

This creates potential delivery delays to the customer, requires additional operational effort and resources and, therefore, bears a supplementary cost in the fulfilment of that order.



Our **Service Level Agreement** requires sellers to split their stock holding (via Replenishment or Mixed Shipments) at a ratio of 35% to CPT and 65% to JHB to serve customer demand across the country and to maintain this split by replenishing stock levels as they deplete.

The charge for Auto IBTs should not be seen as service but as a penalty charge for incorrect stock balancing across our DCs and our Compliance Team will continue to monitor breach of the "Replenishing 1 DC" rule as per the **Service Level Agreement.**

Commencing 1 May 2022, we have introdued increased rates per unit. See the updated Auto IBT Penalty Charges table below.

	Weight			
Size (new charge per unit)	**Light** Less than or equal to 7kg	**Heavy** Greater than 7kg and less than or equal to 25kg	**Heavy Plus** Greater than 25kg and less than 40kg	**Very Heavy** Greater than or equal to 40kg and less than or equal to 70kg
Standard Less than or equal to 35 000 cm3	R18	R75	R145	R180
Large Greater than 35 000 cm3 and less than or equal to 130 000 cm3	R75	R110	R145	R180
Oversize Greater than 130 000 cm3 and less than or equal to 200 000 cm3	R145	R145	R165	R180
Bulky Greater than 200 000 cm3 and less than or equal to 545 000 cm3	R180	R180	R180	R180
Extra Bulky Greater than 545 000 cm3	R220	R220	R220	R220

Please note that the updated fees reflect the platform's current economics (cost and scale) and have been externally benchmarked against comparable rates. All rates exclude VAT.

How can you avoid Auto IBT Transfers?

- Make use of **Low Stock Alerts** to receive an email notification when your stock levels are running low - as per the stock days' cover level defined by the Account Owner in the Account Settings section of the Seller Portal.

- When enabled, our system will continuously assess the rate of sale of your products against your in-stock units (stock days cover) and notify you when product levels have dropped below your targeted level of stock required to serve customer demand.

Report Adminstration Fees

Administration fee for late invoice submissions.

- **Late Invoice Submissions:** Sellers must submit invoices related to stock reconciliation within *30 days of the stock report* being made available on the Seller Portal. Submissions beyond this 30-day window will incur an **administration fee of R200**. For example, suppose the current month is October 2024, and you're submitting an invoice for stock losses reported in the *July 2024 Stock Reconciliation Report (released on August 1st, 2024)*. In that case, you will incur an administration fee of R200 for submitting after August 31st 2024.

Product Re-labelling Fees

Compulsory service for re-labelling unscannable barcodes during DC receiving

When you send inventory to our Distribution Centre, our receiving team conducts quality checks on arrival. If products have unscannable or missing barcodes, we will relabel them with proper barcode identification before processing your stock.

Fee: R20.00 per label, per product unit will be charged to your seller account.

This service ensures smooth inventory processing and maintains operational efficiency by **reducing inbound exceptions**. The relabeling service applies to all sellers and is automatically implemented when needed.
